2. Notwithstanding the provisions of section 33.080, RSMo, to the contrary, money in the fund shall not be transferred and placed to the credit of the general revenue fund until the amount in the fund at the end of the biennium exceeds two times the amount of the appropriation from the board's funds for the preceding fiscal year or, if the board requires by rule permit renewal less frequently than yearly, then three times the appropriation from the board's funds for the preceding fiscal year. The amount, if any, in the fund which shall lapse is that amount in the fund which exceeds the appropriate multiple of the appropriations to the board for the preceding fiscal year.

1. It is unlawful for any person not licensed as a veterinarian under the provisions of sections 340.200 to 340.330 to practice veterinary medicine or to do any act which requires knowledge of veterinary medicine for valuable consideration, or for any person not so licensed to hold himself or herself out to the public as a practitioner of veterinary medicine by advertisement, the use of any title or abbreviation with the person's name, or otherwise; except that nothing in sections 340.200 to 340.330 shall be construed as prohibiting:

(2) Acts of a person who is a student in good standing in a school or college of veterinary medicine or while working as a student preceptee, in performing duties or functions assigned by the student's instructors, or while working under the appropriate level of supervision of a licensed veterinarian as is consistent with the particular delegated animal health care task as established by board rule, and acts performed by a student in a school or college of veterinary medicine recognized by the board and performed as part of the education and training curriculum of the school under the supervision of the faculty. The unsupervised or unauthorized practice of veterinary medicine, even though on the premises of a school or college of veterinary medicine, is prohibited;

(3) Personnel employed by the United States Department of Agriculture or the Missouri department of agriculture from engaging in animal disease, parasite control or eradication programs, or other functions specifically required and authorized to be performed by unlicensed federal or state officials under any lawful act or statute, except that this exemption shall not apply to such persons not actively engaged in performing or fulfilling their official duties and responsibilities;

(4) Any merchant or manufacturer from selling drugs, medicine, appliances or other products used in the prevention or treatment of animal diseases if such drug, medicine, appliance or other product is not marked by the appropriate federal label. (5) The owner of any animal or animals and the owner's full-time employees from caring for and treating any animals belonging to such owner, with or without the advice and consultation of a licensed veterinarian, provided that the ownership of the animal or animals is not transferred, or employment changed, to avoid the provisions of sections 340.200 to 340.330; however, only a licensed veterinarian may immunize or treat an animal for diseases which are communicable to humans and which are of public health significance, except as otherwise provided for by board rule;

(6) Any graduate of any accredited school of veterinary medicine while engaged in a veterinary candidacy program or foreign graduate from a nonaccredited school or college of veterinary medicine while engaged in a veterinary candidacy program or clinical evaluation program, and while under the appropriate level of supervision of a licensed veterinarian performing acts which are consistent with the particular delegated animal health care task;

(7) State agencies, accredited schools, institutions, foundations, business corporations or associations, physicians licensed to practice medicine and surgery in all its branches, graduate doctors of veterinary medicine, or persons under the direct supervision thereof from conducting experiments and scientific research on animals in the development of pharmaceuticals, biologicals, serums, or methods of treatment, or techniques for the diagnosis or treatment of human ailments, or when engaged in the study and development of methods and techniques directly or indirectly applicable to the problems of the practice of veterinary medicine;

(8) Any veterinary technician, duly registered by, and in good standing with, the board from administering medication, appliances or other products for the treatment of animals while under the appropriate level of supervision as is consistent with the delegated animal health care task;

(9) A consulting veterinarian while working in a consulting capacity in Missouri while under the immediate supervision of a veterinarian licensed and in good standing under sections 340.200 to 340.330; and

(10) Any animal chiropractic practitioner from engaging in the practice of animal chiropractic if the animal chiropractic practitioner has received a referral of the animal from a licensed veterinarian with a current veterinarian-client-patient relationship, as defined in section 340.200. The referring veterinarian may limit the number of visits or length of treatment at the time of referral or after consultation with the animal chiropractic practitioner.

2. Nothing in sections 340.200 to 340.330 shall be construed as limiting the board's authority to provide other exemptions or exceptions to the requirements of licensing as the board may find necessary or appropriate under its rulemaking authority.

(L. 1992 H.B. 878 § 9, A.L. 1999 S.B. 424, A.L. 2023 S.B. 157)

(L. 2004 H.B. 869)

340.218. Evidence of intent to engage in practice. The use of any title, words, abbreviations, letters or symbol in a manner or under circumstances which induce the reasonable belief that the person using them is qualified to do any act described in subdivision (32) of section 340.200 is prima facie evidence of the intention to represent such person as engaged in the practice of veterinary medicine under sections 340.200 to 340.330.

(L. 1992 H.B. 878 § 10, A.L. 2023 S.B. 157)

It is considered the practice of veterinary medicine to use any invasive procedure to remove any embryo from an animal for the purpose of transplanting such embryo into another female animal or for the purpose of cryopreserving such embryo, or to implant such embryo into an animal. It is not considered the practice of veterinary medicine for a person or that person's full-time employees to remove an embryo from the person's own animal for the purpose of transplanting or cryopreserving such embryo or to implant an embryo into the person's own animal; however, ownership of the animal shall not be transferred or the employment of any person changed for the purpose of circumventing sections 340.200 to 340.330.

(L. 1992 H.B. 878 § 11, A.L. 1999 S.B. 424)

2. Nothing in this section shall be construed to relieve veterinary technicians, veterinary medical candidates, provisional licensees, temporary licensees, veterinary medical preceptees or unregistered assistants of any responsibility or liability for any of their own acts or omissions.

(L. 1992 H.B. 878 § 12, A.L. 1999 S.B. 424, A.L. 2006 S.B. 756, A.L. 2023 S.B. 157)

340.224. Board's authority not limited, when. Nothing in sections 340.200 to 340.330 shall be construed as limiting the board's authority to establish additional physical requirements or minimum standards by rule-making for any facility listed in sections 340.200 to 340.330 or for any place, unit or setting from which the practice of veterinary medicine is conducted.

(L. 1992 H.B. 878 § 13)

340.226. Licensed veterinary employees, prohibited when—exceptions—application of section. 1. A licensed veterinarian may practice veterinary medicine as an employee of a corporation, partnership or other business organization only so long as the articles of incorporation, partnership agreement or business organization documents clearly state that the licensed veterinarian is not subject to the direction of anyone not licensed to practice veterinary medicine in Missouri in making veterinary medical decisions or judgments.

2. The provisions of subsection 1 of this section do not apply to:

(1) A veterinarian treating his or her employer's animals;

(2) A veterinarian employed by an agency of the federal or state government or any political subdivision thereof;

Such partnership, employee or owner shall be recognized by the board and continue existing operations if such partnership, employee or owner complies with all other provisions of sections 340.200 to 340.330.

2. Each application shall contain a statement that is made under oath or affirmation that representations made therein are true, correct and contain no material omissions of fact to the best knowledge and belief of the person making the application and whose signature shall be subscribed thereto. Any person who knowingly submits false information, information intended to mislead the board, or omits a material fact on the application shall be subject to penalties provided for by the laws of this state for giving a false statement under oath or affirmation, in addition to any actions which the board may take pursuant to the provisions of sections 340.200 to 340.330.

(1) Is a person of good moral character;

(2) Is a graduate of an accredited school of veterinary medicine;

(3) Has completed a veterinary candidacy program after graduation under the supervision of a veterinarian licensed and in good standing in any state, territory or district of the United States. The supervising veterinarian shall submit an affidavit to the board stating that the applicant has satisfactorily completed the veterinary candidacy program. If the applicant submits satisfactory proof that he or she has completed a student preceptor program recognized and approved by the board before graduation, the board may waive the veterinary candidacy requirement; and

(4) Has passed an examination or examinations as prescribed by board rule. The examination or examinations shall be designed to test the examinee's knowledge of, and proficiency in, subjects and techniques commonly taught in schools of veterinary medicine, the requirements of sections 340.200 to 340.330, other related statutes and administrative rules and other material as determined by the board. An examinee must demonstrate scientific, practical and legal knowledge sufficient to establish for the board that the examinee is competent to practice veterinary medicine. The examination or examinations will only be given in the English language. Applications for examination shall be in writing, on a form furnished by the board and shall include evidence satisfactory to the board that the applicant possesses the qualifications set forth in this section.

4. The board may require such other information and proof of a person's fitness as it deems necessary.

(2) Completed a veterinary candidacy program; and

1. The application shall be accompanied by registration and examination fees as established by board rule pursuant to section 340.210. The registration fee shall not be returned if the applicant is admitted to the practice of veterinary medicine but shall be deemed to include payment of the registration fee for the remainder of the licensing period in which the applicant is admitted.

2. The examination fee shall be returned to the applicant if the board determines that the applicant is not qualified to sit for the examination. However, the examination fee shall not be returned if the board denied the application because the applicant provided false information.

- (1) Pay examination fees for each subsequent application;
- (2) Wait for some period of time as prescribed by board rule from the date of the failed examination to take the next examination; and
- (3) Prior to the fourth and final attempt at passage, present to the board a plan for passage and evidence of completion of at least thirty hours of board-approved continuing education since last sitting for the examination or in the calendar year preceding the final application.

(L. 1992 H.B. 878 § 17, A.L. 1999 S.B. 424)

340.234. Examination—licensure without examination. 1. If the board determines that the applicant possesses the proper qualifications as set forth in subsection 3 of section 340.228, it shall admit the applicant to the next scheduled examination.

2. Applicants shall submit an application and the registration and examination fees as required by rule of the board.

3. The board shall establish the requirements for a passing score on the examination. In order for a previous examination score to be transferred for a current licensing period, the score must have been received within five years prior to the application. If that passing score was not received within three attempts, the board may require the applicant to appear before the board or submit evidence that the applicant has completed at least thirty hours of board-approved continuing education. The board shall have sole discretion on whether to accept for transfer a score from another state's licensing authority.

4. If all the other requirements of sections 340.200 to 340.330 have been met, the board shall issue licenses to the persons who successfully completed the examination. The executive director shall record the new licenses.

5. If the board determines that the applicant is eligible for licensure without examination through the reciprocity provision of section 340.238, the board may grant the applicant a license without examination.

(L. 1992 H.B. 878 § 18, A.L. 1999 S.B. 424, A.L. 2006 S.B. 756)

- (1) The applicant has been actively engaged in the profession in another state, territory, district or province of the United States or Canada for a period of at least five consecutive years immediately prior to making application in Missouri and provides the board with a complete listing of all locations of all previous places of practice and licensure in chronological order;

(2) A certificate from the proper licensing authority of the other state, territory, district or province of the United States or Canada certifying that the applicant is duly licensed, that the applicant's license has never been suspended, revoked, surrendered, or placed on probation, whether voluntarily or not, and that, insofar as the records of that authority are concerned, the applicant is entitled to its endorsement;

(3) The standards for admission to practice veterinary medicine of the state, territory, district or province of the United States or Canada in which the applicant is currently licensed were equal to or more stringent than the requirements for initial registration in Missouri at the time of the applicant's initial registration.

2. Even if the applicant has submitted proof of the qualifications in subsection 1 of this section, the board may by rule require any applicant under this section to take any examination, oral or written, or practical examination if such examination is required for an applicant seeking licensure by examination pursuant to the provisions of sections 340.200 to 340.330.

3. The board may negotiate reciprocal compacts with licensing boards of other states, territories, districts or provinces of the United States or Canada for admission to the practice of veterinary medicine.

4. To determine the admission standards of other states, territories, districts or provinces of the United States or Canada, the executive director shall gather information as directed by the board pertaining to such standards. The board may contract with persons to assist the board in obtaining and evaluating such information and material.

5. The board may issue a license upon payment of a fee for licensure by reciprocity, if the applicant meets the requirements of this section and other provisions of sections 340.200 to 340.330.

6. If the board determines that an applicant is not qualified to be licensed under this section, the executive director shall immediately notify the applicant in writing. The notification shall include specific findings of the board as to the applicant's failure to qualify under this section, that the applicant may request a hearing before the board on the question of the applicant's qualifications, that the applicant may otherwise be considered for licensure after examination as provided in section 340.240* and of the applicant's right pursuant to section 621.120, RSMo, to file a complaint with the administrative hearing commission.

(L. 1992 H.B. 878 § 20, A.L. 1999 S.B. 424)

340.246. Provisional licensure, requirements—term. A provisional license may be issued to a qualified applicant for licensure pending examination results and completion of the veterinary candidacy program, or who has otherwise applied for licensure by grade transfer, reciprocity, or examination, if the applicant meets all other required qualifications for licensure in sections 340.200 to 340.330; provided that the applicant is working under the supervision of a licensed veterinarian in good standing. Such supervision shall be consistent with the delegated animal health care task. A provisional license shall expire one year after the date of issuance. (a) The applicant is a graduate of a reputable school or college of veterinary medicine;

(b) The applicant has or will have a faculty position at one of this state's institutions of higher learning and will be involved in the instructional program of either undergraduate or graduate veterinary medical students, as certified by an authorized administrative official at such institution; and

The license is limited to the animals of the specific owner identified in the application. The temporary license shall expire one hundred twenty days after it is issued. Upon request of the applicant, the board may renew the temporary license for an additional ninety days.

2. When a licensed veterinarian of another state applies for a temporary license under this section, the applicant shall designate the secretary of state as the applicant's agent for the purpose of service of process in any action or proceeding against the applicant arising out of any transaction or operation connected with, or incidental to, the practice of veterinary medicine pursuant to such temporary license.

3. Only one temporary license may be issued to any person at the same time.

4. The employer identified on the application for a temporary license issued pursuant to this section shall notify the board within ten days if the employment ceases at the place of employment designated on the temporary license.

The notification required by this subsection shall be by certified mail, return receipt requested, to the licensee's last known business and residence addresses. If the application and fees are not received within ten days after the return receipt is received, the licensee's license shall be declared noncurrent. The order and a copy of the application therefor shall be served upon the person in the same manner as a summons in a civil action. Effective August 28, 1999, no person may take any examination more than four (4) times either in or out of Missouri to qualify for licensure in Missouri; and

(E) Successfully complete the State Board Examination administered by the board.

(4) Following the review process, the applicant will be informed by letter that licensure by reciprocity has been approved or denied. The denial letter will identify the reason(s) for denial and the appeal process.

Title 20—DEPARTMENT OF COMMERCE AND INSURANCE
Division 2270—Missouri Veterinary Medical Board
Chapter 6—Professional Conduct for the Practice of Veterinary Medicine

20 CSR 2270-6.011 Rules of Professional Conduct

PURPOSE: *This rule establishes a professional code of conduct for veterinarians and veterinary technicians.*

- (1) Pursuant to section 340.210.2(13), RSMo, the Missouri Veterinary Medical Board adopts the following rules to be referred to as the rules of professional conduct. These rules of professional conduct are binding on every person licensed by the board to practice as a veterinarian or registered by the board to practice as a veterinary technician. Whenever the term licensee is used, it shall be read to include any individual possessing a license, certificate of registration, permit, or any other form of authorization issued by the board pursuant to Chapter 340, RSMo. Any act or practice found to be in violation of these rules of professional conduct shall be considered as unprofessional conduct and be grounds for the filing of a complaint with the Administrative Hearing Commission.
- (2) In the performance of professional services, licensees at all times shall be cognizant that their primary responsibility is to the public's safety, health, or welfare and that this responsibility shall never be compromised by self-interest, personal advantage, or monetary gain.
- (3) Licensees shall undertake to perform only those professional services for which they, or those whom the licensee may employ, are qualified by education, training, or experience to perform. If the licensee is not qualified to provide services requiring advanced training or education, the licensee must truthfully and accurately inform the client of those limitations and offer all available assistance in referring the client to colleagues or other professionals who are qualified to render those services or treatments.
- (4) Licensees, directly or indirectly, shall not injure the professional reputation, standing, prospects of practice or employment of another member of the profession in any manner which could reasonably be deemed as malicious, false, or misleading.
- (5) Licensees at all times shall conform their practice to the currently accepted standards for the profession of veterinary medicine as these standards are set forth under Chapter 340, RSMo or by any rule lawfully promulgated by the board or as otherwise found to be accepted within the profession as gauged by the reasonable conduct of other professionals engaged in the practice of veterinary medicine.
- (6) Licensees shall not initiate or knowingly participate in any form of advertising or solicitation that contains false, deceptive, or misleading statements or claims.
- (7) A licensee shall not advertise, state, or imply by any means that s/he is a specialist in any given field unless the licensee is, in fact, a diplomate of an American Veterinary Medical Association (AVMA)-recognized specialty and is board-certified by the AVMA.
- (8) Licensees at all times shall conduct themselves in a professional manner with the general public and clients through courteous verbal exchange. Licensees shall provide all clients with a diagnostic assessment and treatment plan, to include recommendations and medications when appropriate, prior to rendering the treatment, except in cases of emergencies where the client cannot be reached for consultation within a reasonable time frame as dictated by the patient's condition. All clients shall be informed of any required follow-up treatment. All diagnostic assessments, treatment plans, medications, and other pertinent information regarding the treatment of the patient shall be recorded in the patient's medical record and a copy of the record shall be made available to the client upon request.
- (9) In the event that a client should choose to consult with or utilize the services of another veterinarian, the licensee shall withdraw from the case if so requested. The licensee shall indicate the circumstances for withdrawal on the medical records and cooperate fully with the other veterinarian to include the transmittal of a copy of all pertinent medical records upon the request of the other veterinarian who has the authorization of the owner of the animal to which it pertains or directly to the owner or owner's agent.
- (10) Although a licensee may choose whom to serve, once the care of a patient has been undertaken the licensee has an obligation to provide reasonable services or treatment to stabilize the patient or to prevent unnecessary suffering or pain.
- (11) Licensees shall not reveal confidential, proprietary, or privileged facts or data or any other sensitive information contained in a patient's medical records or as otherwise obtained in a professional capacity without the prior consent of the client except as otherwise authorized or required by Chapter 340, RSMo, lawful rules as promulgated by the board, court order, or any other state or federal law, or regulation. However, this section shall not apply to

cases in which the veterinarian may observe animal abuse or neglect. The board recognizes that veterinarians may observe cases of animal abuse or neglect as defined by federal or state laws, or local ordinances. When these situations cannot be resolved through education, the board considers it the responsibility of the veterinarian to report such cases to the appropriate authorities. Disclosures may be necessary to protect the health and welfare of animals and people. Veterinarians should be aware that accurate record keeping and documentation of these cases are invaluable.

(12) Licensees have an obligation to immediately inform the board of any disciplinary action taken against their licenses to practice veterinary medicine by another state or federal authority or of the suspension, revocation or surrender of any controlled substance license or registration issued by any state or federal authority. Licensees at all times shall conduct their professional activities in conformity with all state and federal laws and regulations.

(13) Licensees have an obligation and professional duty to cooperate with any reasonable request by the board to appear before the board or to furnish information to the board upon request concerning any investigation or complaint.

(14) Licensees at all times shall comply with any lawful order issued by the board or with any consent agreement voluntarily entered into between the licensee and the board.

(15) A licensee shall not dispense or prescribe any controlled substance or legend drug except in the professional course of his/her practice and only upon the establishment of a bona fide veterinarian-client-patient relationship.

(16) A licensee shall not issue any certificate of health/inspection required or authorized by state, federal, or municipal law unless s/he has personal knowledge of the factual averments contained in the certificate of health by means of actual inspection, examination, appropriate testing, or any combination of these, of the animal(s).

(17) A licensee shall not aid or abet, either directly or indirectly, the unlawful practice of veterinary medicine and shall be obligated to report to the board any information which the licensee has regarding the unlawful or unlicensed practice of veterinary medicine.

(18) A licensee shall not delegate any professional responsibility to any person, whether or not that person is employed by the licensee, except as otherwise provided for or authorized under and pursuant to Chapter 340, RSMo or any lawful rule promulgated by the board.

(19) A licensee shall obtain the informed written consent of the client prior to placing any patient under anesthesia or performing any surgical procedure, or both, except in an emergency.

(20) Licensees shall have the responsibility and obligation to ascertain whether or not any person engaged in the employment of the licensee has the necessary license or registration to practice his/her profession in this state and that the license or registration is current.

(21) A licensee shall obtain the consent of the client prior to transporting a patient to another facility for veterinary care or lodging, unless circumstances qualifying as an emergency do not permit obtaining consent, or as otherwise provided for under Chapter 340, RSMo or any lawful rule promulgated by the board.

(22) Licensees shall notify clients where to call if a licensed veterinarian is unavailable at that facility. The use of an answering device will meet the intent of this rule.

(23) The initials "RVT" shall designate a registered veterinary technician. Only those individuals who are so licensed by the board may use the designation with their name.
